Board of Directors Arrowhead Metropolitan District

We have audited the financial statements of Arrowhead Metropolitan District for the year ended December 31, 2020. Professional standards require that we provide you with the following information related to our audit.

Qualitative Aspects of Accounting Policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Arrowhead Metropolitan District are described in the notes to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

- Estimating the useful lives for depreciation on capital assets.

We evaluated the key factors and assumptions used to develop these estimates and found that they are reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. No such misstatements were detected during the course of our audit.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

As is required in an audit engagement we have requested certain representations from management that are included in the management representation letter.

New Financial Reporting Standard

Financial reporting standards for the District are promulgated by the Governmental Accounting Standards Board ("GASB"). GASB has issued Statement 87, Leases ("GASB 87"), which requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. GASB 87 is effective for reporting periods beginning after December 15, 2019 so the District's financial statements as of and for the year ending December 31, 2020 must reflect the changes imposed by this new reporting standard. Due to COVID-19, implementation has been postponed and is now required for periods beginning after June 15, 2021. Early implementation of GASB 87 is permitted.

We will work with you to support implementation of this new standard and the related presentation considerations over the coming years.

This report is intended solely for the information and use of the Board of Directors, management, and others within the organization and is not intended to be, and should not be, used by anyone other than those specified parties.
